Subject: Element SEDD questions

Hi Rich, I was wondering if you had sometime today or tomorrow to give me a call to talk about SEDD edds? I believe you all are doing some work for this big Dimock hydrofracturing case....and, you will be creating SEDDs. I would love to create SEDDs, also, but, I am really confused about what cross-table I should be using and how to create that. If you can help me out, I would really appreciate.

give me a call...or let me know when I can call you...thank you!!
robin
